

Skype User Guide

1. Download Skype onto your computer desktop from <https://www.skype.com/en/download-skype/skype-for-computer/>
2. Create a log in account. You will need to have an email and then create a password for the account.
3. Once you have logged into Skype, this is the screen you will see.

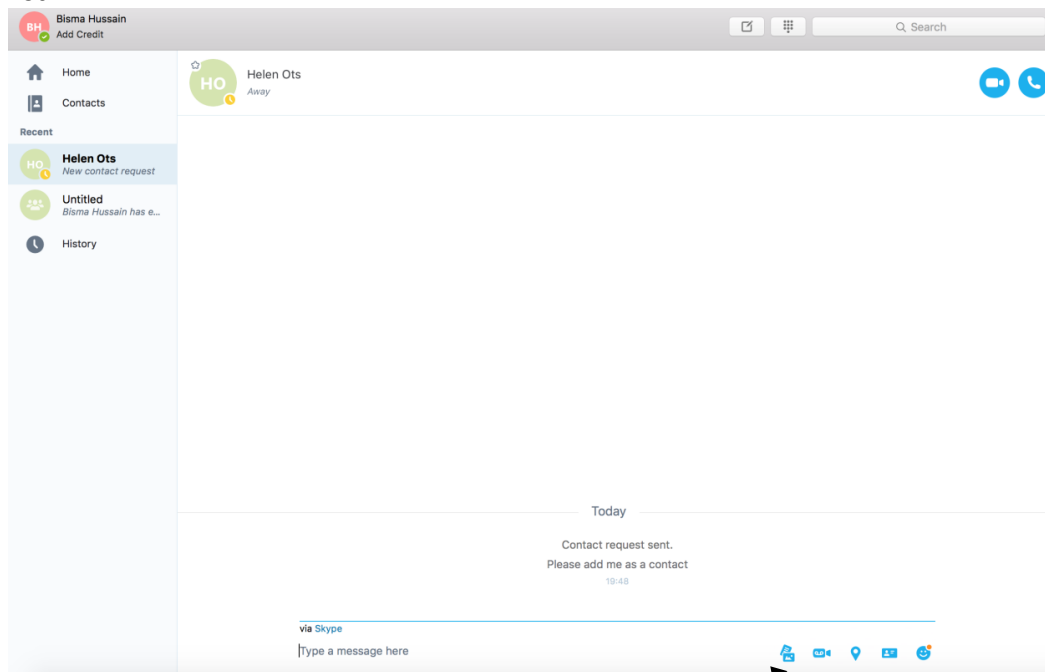

4. You will receive contact invites through your email address from members of the Social Storm Team.

Using Skype.

To place a video call with any of your contacts, click the camera button here. You are also able to use Skype to send instant messages with people in your contact list.

File and photo sharing is also possible through Skype. The button next to the “type a message here” can be used.
